
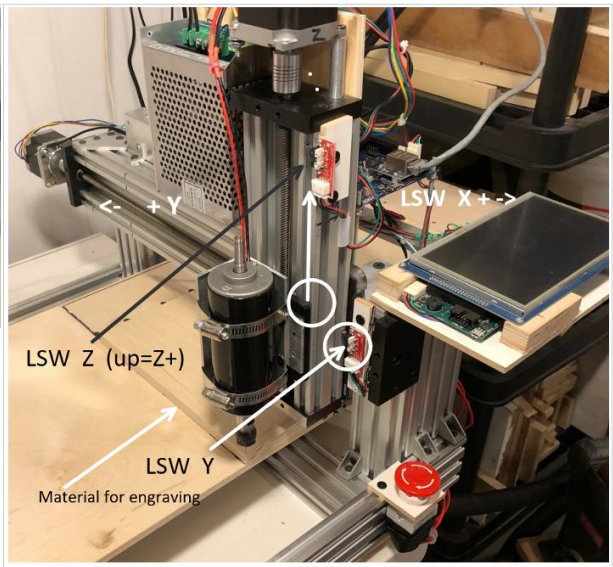
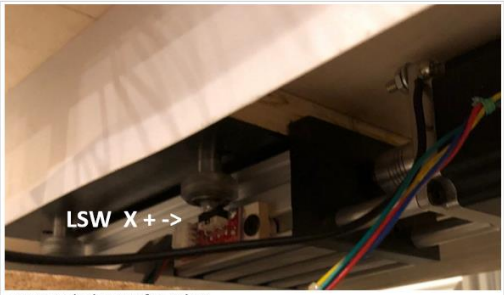
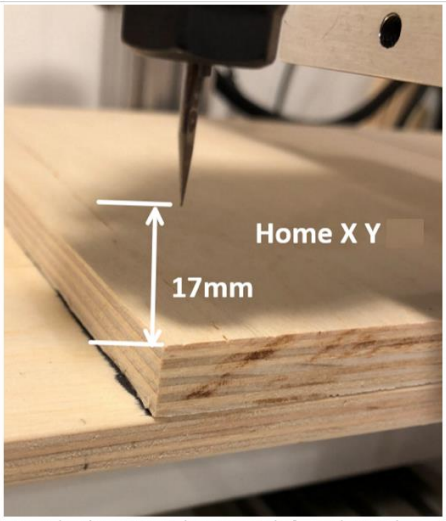
Position **Home for X Y**





LSW touch the nut for axis X

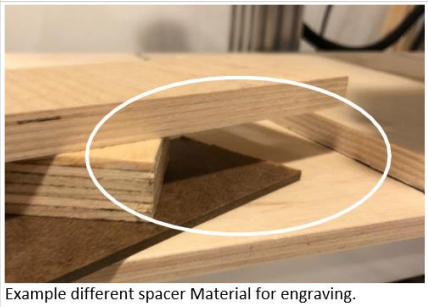


120 and 17 is not exact, but a example for understand.

137-120 = 17 mm

After, I think, I need move Z down by hand for this spacer (example, here is 1/8")

This is the **Home for X Y Z** in my CAM



Example different spacer Material for engraving.

The spacer change many time.
